

One-Stop Career Centers

A Ready Resource for Employers in the Commonwealth

Overview

For employers seeking a skilled, motivated and adaptable workforce to meet current or emerging labor needs, Massachusetts has 32 One-Stop Career Centers scattered throughout the state that can help.

How It Works

There are a number of services for employers, including the ability to list job openings, help in planning a job fair, prescreen and refer potential job applicants, resources to help train, maintain, and grow workforces, and provide research on the Commonwealth's labor market.

In addition the One-Stop Career Centers can provide assistance for significant employer downsizing or layoffs. Employers can access services for their workers, including information on Unemployment Insurance benefits and Medical Security Plan information.

Advantages

No matter where your business is located in Massachusetts, there is a Career Center near you that can help you stay ahead of the competition. Each One-Stop Career Center is locally managed, and works closely with employer driven regional workforce boards to ensure that the services and activities available at the Centers reflect regional needs.

Eligibility

All employers in the Commonwealth can access services through the One-Stop Career Centers in their area.
